Judging Criteria: 100 Possible Points

Mandated Three Minute Minimum/Eight Minute Maximum Penalty

A five (5) point deduction from the total possible 100 points is required for each 15 seconds (or part of 15 seconds) the contestant is under three minutes or over eight minutes. The timer will keep track of time and notify the teller of any penalties to be subtracted before the final judgments are made. **No contestant will be disqualified for a short or long performance, but points subtracted may severely reduce a total score.**

Teller Instructions/Contest Results Tabulation

- Each judge uses his point designations to choose his first, second, and third place winners. (For example Judge A may have a total of 50 points for his/her 1st place performer, 48 points for 2nd and so on. Judge B may have 100 points for his/her 1st place performer, 75 for 2nd and so on. ***Therefore, total points will not decide the overall winner(s); rather, the placement of each judge will determine the overall winner(s) See Teller Instructions.***
- We suggest contests have three primary judges and a fourth to be used as a tie-breaker. In the event this does not provide a clear-cut winner, the judges will look at their scoring points and make a final judgment.
- It is preferred to judge three places. However, in the event the judges cannot break a tie, they have the prerogative to split the prize money between the two contestants.
- All decisions by the judges are final and cannot be appealed.
- Contestants should not be shown their score sheets or total score.
