Project Overview

Tell us a little about your project. What are the main objectives of the project, and who will benefit from it?

Since 2012, Rotary Clubs in Uganda have sponsored free health camps for people in poverty in areas that are hard for the MOH system to reach. The health camps provide screening (testing) for malaria, hypertension, diabetes, HIV/AIDS, Covid, cervical cancer, vision, hearing, and dental. Treatments include de-worming, safe male circumcision, medicines, vaccinations, tooth extractions, and referrals to healthcare centers and hospitals. We are expecting to sponsor ~70 sites, and serve more than 35,000 people of poverty. 2023 is a critical year for RFHDs because of the 2-year COVID lockdown, critical vaccinations are at a dangerously low level—especially for people in hard-to-reach areas. Further, rumors are circulating that vaccines are not safe. We will work with faith leaders to squelch these rumors.

Uganda Rotary Family Health Days (RFHDs) implements a monitoring and evaluation system (M&E) that not only assesses user and sponsor satisfaction, it measures sustainable outcomes, e.g., behavioral changes in personal healthcare.

The MOH has contributed updated information to our GG Community Assessment. It will also identify healthcare centers and hospitals which should host the health camps, and it will identify medical professionals who should be invited to volunteer their services pro bono.

Partners (Optional)**List any other partners that will participate in this project.**

1. Other Rotary clubs in both D9213 and D9214
2. Participating Rotaract clubs in both D9213 and D9214
3. Participating Health Centers in both D9213 and D9214
