

Club Meeting Programs

Looking for a program this year!

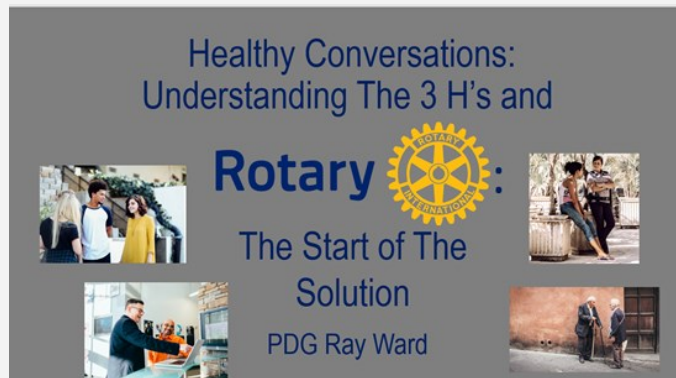

How You Can Help Market Your Club

This club program is designed to provide more advance ideas and concepts for members to better understand how they can be part of a team to market your club so that your club can attract new members while retaining your current members. In addition, we will discuss how this can help your club fundraiser and more impactful with your community service.

Healthy Conversations

This club program is designed to help your members understand that there are solutions for many of the diversity and conflict issues that we have in today's society which can be solved by using conversations and the 4-Way Test. Last year, this program was well received by the clubs that I presented it to.
